DIARY  
Executive Officer, DD/I

Monday, 15 December 1952

- 25X1A9a 1. Attended Mr. [redacted] briefing in the Office of Logistics, a meeting attended by about twenty of the senior members of the DD/P and 25X1A9a DD/A complexes. [redacted], O/RR, accompanied me. Following the 25X1A9a meeting, I arranged with [redacted] that a copy of [redacted] report, 25X1A9a together with all of the papers and background matter brought back by him, be sent to us for coordination and ultimate filing in Industrial 25X1A9a Registry. [redacted] has asked that these papers be sent to the Registry through him so that he may make extracts as he sees fit.
- 25X1A9a 2. On Saturday I reviewed the Black Book of Projects prepared by [redacted] and found that many of them have progressed beyond the status reflected in the book. I discussed these today with [redacted] and he tells 25X1A9a me that some time this week he expects to bring most of these up to date. I suggested that A/DD/I might like to have a brief paragraph on each so 25X1A9a that his stewardship might be passed back to [redacted] with an indication of accomplishment.
- 25X1A9a 3. [redacted] DAD/CD, called stating that [redacted] 25X1A9a O/IC, has requested Moreau to approach the DCI for CIA's position in meeting or turning down a SRE request for IAC-45/30. Both Army and Navy have turned 25X1A9a down this request. [redacted] and I discussed, at some length, in light of 25X1A9a [redacted] earlier discussion with me (EO/DD/I Diary, 4 December) and decided that nothing useful is gained through CIA taking a position. We decided there was no point in bothering the DCI in the face of the turn-down by the two Services.
- 25X1A9a 4. Discussed, with Mr. Sheldon, the Admiral Espey briefing on 22 December. I informed Mr. Sheldon that [redacted] will pick up 25X1A9a the Admiral at 3:15 and take him to the DD/P area for their briefing. Thus it is unnecessary for Sheldon to include that information on the DD/P chat during his 1 1/2 hours with Admiral Espey. Mr. Sheldon will check as to [redacted] SI clearance with a view to inviting Gen. 25X1A9a [redacted] to sit in on the O/CI briefing. [redacted] will join the 25X1A9a group in the Director's dining room.
- 25X1A9a 5. [redacted] called to say that his staff study on the "Idea Officer" has cleared through Administration Building and he is still somewhat concerned lest the DD/P decide to place this function in one of the Divisions rather than on one of his own staffs. I told [redacted] 25X1A9a that should this appear to be developing, if he will let me know, we will look into the advisability of pointing out to DD/P that we feel the importance requires that it be handled at the highest possible level.
- 25X1A9a 6. [redacted] 25X1A9a OO, called to say that the [redacted] 25X1A6a is taking care of [redacted] entrance through Customs. I told Delaney that I would make no other arrangements and leave the entire matter in his hands. I also asked him that if either Mr. Amory or I go up to meet Mr. Becker, would it be possible for the [redacted] to arrange for us

to go down the harbor to Quarantine on the Cutter and board the UNITED STATES there. However, I asked [REDACTED] to do nothing about this until we have heard from [REDACTED] that one of us is to meet him.

7. [REDACTED] called regarding the [REDACTED] letter and asked if it wouldn't be possible to nominate the individual to handle this now. I checked with [REDACTED] at some length, and found that in his opinion, the whole matter is extremely confusing, will ultimately involve many of the IADs, is already involving DD/P and might, in time, involve the IAC. [REDACTED] recommends a full study between now and our deadline of 29 December. I so informed [REDACTED] and he agreed to release the acknowledgment letter.

25X1A9a

8. Discussed the technical people [REDACTED] letter with [REDACTED]. He suggested that O/IC might be helpful in coordinating this matter and I urged them to request their assistance.

9. Attended DD/A's weekly staff meeting in the absence of [REDACTED] and I am submitting a separate memorandum of this.
